

SUHAS PAI

Software Engineer 1 | Java Backend Developer

+918971317600 suhaspai412@gmail.com GitHub LinkedIn Website Pune, India

PROFESSIONAL SUMMARY

Java Backend Developer with 2+ years of experience designing and developing scalable enterprise and SaaS applications using Java, Spring Boot, Microservices, and REST APIs. Experienced in building secure backend systems with Spring Security, JWT Authentication, Spring Data JPA, Hibernate, PostgreSQL, Redis, and Docker. Hands-on experience with GitHub Actions, Spring AI, and Groq LLM to build production-ready applications following clean architecture, design patterns, and Agile methodologies.

WORK EXPERIENCES

Software Engineer 1 | Full-time

Jun 2024 - Jul 2026

Lenze

Hybrid • Pune

- Designed and developed 5+ **enterprise application modules** using Java, Spring Boot, Spring MVC, and React.js for industrial automation solutions.
- Built 15+ **secure REST APIs** using Spring Security, Spring Data JPA, Hibernate, and PostgreSQL, enabling reliable communication between enterprise applications.
- Developed modular backend services following **microservice architecture**, improving maintainability and code reuse across multiple enterprise projects.
- Implemented AI-assisted validation workflows using Spring AI, **reducing manual verification effort by 30%** and improving engineering productivity.
- Developed Excel (.xlsx) to JSON transformation utilities, simplifying engineering configuration workflows and **reducing manual data-entry effort by 10%**.
- Refactored legacy modules, resolved dependency injection issues, and achieved **90% unit test coverage** using JUnit and Mockito, improving application reliability.

Technologies / Skills Used : Java 17, Spring Boot, Spring Security, Spring Data JPA, Microservices, PostgreSQL, React.js, JUnit

Software Engineer Intern | Internship

Mar 2024 - Jun 2024

Lenze

- Contributed to the development of **EASY Starter** using Java, Spring Boot, Spring MVC, and React.js, improving application startup performance by **15%**.
- Debugged and refactored existing modules, reducing average page load time by **20%** and improving application stability.
- Developed and maintained unit tests using **JUnit** and **Mockito**, increasing test coverage and reducing regression issues during development.
- Collaborated in Agile sprints, participated in code reviews, and integrated REST APIs across multiple application modules.

Technologies / Skills Used : Java, Spring Boot, Spring MVC, React.js, JUnit, Mockito, Maven, Git

PROJECTS

ePai-AI Powered Full Stack E-Commerce Platform | GitHub Vercel

- Developed a production-ready full-stack e-commerce application using **Java 21, Spring Boot, Spring Security, Spring Data JPA, Hibernate, React.js, Vite, Tailwind CSS, PostgreSQL, Docker, and GitHub Actions**.
- Built and secured **20+ REST APIs** with **JWT Authentication** for product, category, cart, wishlist, order, address, review, and user management.
- Implemented payment integration, image uploads, email notifications, search, filtering, pagination, and inventory management to support end-to-end e-commerce workflows.
- Followed a layered **Controller-Service-Repository** architecture and integrated the React frontend with Spring Boot using **Axios**.
- Hosted the database on **Neon PostgreSQL**, deployed the frontend on **Vercel** and backend on **Render**, and automated deployments using **GitHub Actions**.
- Configured **UptimeRobot** to ping the backend every 5 minutes, preventing Render free-tier sleep and ensuring high application availability.

Technologies / Tools Used : Java 21, Spring Boot, Spring Security, PostgreSQL, React.js, Docker, GitHub Actions, JWT Authentication

WanderAI — AI Travel Planner SaaS | GitHub

- Developed an AI-powered travel planner SaaS using **Java 21, Spring Boot, Spring AI, Groq LLM, React.js, PostgreSQL, Docker, and GitHub Actions**.
- Built 5+ **core modules**, including AI-generated itineraries, Razorpay payments, responsive dashboards, secure authentication, and role-based access control.
- Designed and secured **15+ RESTful APIs** using **Spring Security, JWT Authentication, and RBAC**.
- Integrated Razorpay with **2 payment reliability mechanisms**—webhook verification and idempotency—to ensure secure transaction processing.
- Containerized the application using Docker, automated CI/CD with GitHub Actions, and deployed a scalable cloud-ready application following clean architecture.

Technologies / Tools Used : Java 21, Spring Boot, Spring AI, PostgreSQL, React.js, Docker, GitHub Actions, Groq LLM

HealthTrack — Full Stack Wellness Platform | GitHub

- Developed a full-stack wellness platform using **Java, Spring Boot, Spring Security, React.js, PostgreSQL, Docker, and GitHub Actions**.
- Built and secured **15+ REST APIs** implementing JWT Authentication, habit tracking, secure password reset, and user management.
- Developed 5+ **core modules**, including habit tracking, analytics dashboards, password reset, responsive UI, and progress visualization using **Chart.js**.
- Containerized the application using **Docker Compose**, automated CI/CD with **GitHub Actions**, and streamlined deployment workflows.
- Resolved **3 major production issues** related to JPA relationships, Docker networking, and CORS, improving application stability while following clean architecture principles.

Technologies / Tools Used : Java, Spring Boot, Spring Security, PostgreSQL, React.js, Docker, GitHub Actions, Chart.js

SKILLS

Programming Languages :	Java, JavaScript, SQL
Backend :	Spring Boot, Spring Security, Spring MVC, Spring Data JPA, Hibernate, Microservices, Spring AI
FrontEnd :	React.js, HTML5, CSS3, Tailwind CSS, Vite
Databases :	PostgreSQL, MySQL, Redis
DevOps & Tools :	Docker, Git, GitHub Actions, Maven, Postman
Testing :	JUnit, Mockito
API & Architecture :	REST APIs, JWT Authentication, OAuth2, OpenAPI, Swagger, Design Patterns

EDUCATIONS

NMAM Institute of Technology, Mangalore |

Aug 2020 - Jun 2024

B.E in Information Science & Engineering

CGPA : 8.29 / 10

CERTIFICATIONS

- Java Spring Framework, Spring Boot & Spring AI
- Full Stack Web Development Bootcamp
- AI Tools Workshop (be10x)
